

REMARKS

The foregoing amendments to the Title and Abstract have been made to reflect the previous cancellation of claims 76-139. A proposed amendment to the Abstract (which is identical to the above Abstract) was presented to the Examiner in a facsimile on April 22, 2005. During a telephone call with the Examiner on April 27, 2005, the Examiner indicated that the proposed amendment is acceptable and would be entered in conjunction with an amendment under 37 CFR § 1.312. Accordingly, it is believed that these amendments do not affect the scope of the claims in any way, and accordingly, entry is believed proper, and is respectfully requested.

Applicant also acknowledges the restriction requirement and subsequent election noted on pages 2 and 3 of the Notice of Allowability. Applicant further acknowledges the Examiner's Amendment that canceled claims 76-139, which was authorized in light of the foregoing restriction requirement.

Lastly, Applicant and the undersigned thank the Examiner for his time in considering Applicant's request for FIGS. 9 and 31 to be used for the cover sheet on the issued patent.

Respectfully submitted,

LESTER F. LUDWIG
